Foot-notes to table 1

- a/ The above statistics are based on the Agency's registration records, which do not necessarily reflect the actual refugee population owing to factors such as unreported deaths and undetected false registration.
- b/ Before 1954, half rations were issued to babies and bedouins, as well as to frontier villagers in Jordan. Since then, babies have been eligible for full rations after their first anniversary if the ration ceiling permits. Bedouins are eligible to receive full rations. Half rations are issued only to frontier villagers on the West Bank. Three thousand three hundred and eighty-seven frontier villagers displaced to east Jordan after the hostilities of June 1967 are issued with full rations, on an emergency basis.
- c/ Includes babies below one year of age and children who, because of ration ceilings, are not issued rations. (These children without rations number 162,691 in east Jordan, 64,594 in the West Bank, 36,346 in Gaza, 33,344 in Syria and 11,063 in Lebanon.) No births have been registered in respect of registered displaced refugees in east Jordan since the hostilities of June 1967.
- d/ Columns 5, 6 and 7 show the number of persons whose registration for assistance by the Agency has been reduced or cancelled according to their family income as known to the Agency and the income scale in force in their country of residence.

The members of "R" families receiving no rations (column 5) shown for 1957 to 1969 correspond to a level of income insufficient to cancel the whole family's entitlement to rations. The increase in 1969 includes refugees who were absent from West Bank and Gaza after the hostilities of June 1967, many of whom are now being issued with rations in east Jordan on a temporary basis, pending documentation of their transfer. Up to 1956, such persons were reported together with families of the "N" Category (column 7). In 1966, new sub-category of registration was introduced for persons registered for rations, but whose entitlement has been temporarily suspended (e.g., by reason of their employment by the Agency or acceptance in institutions). At the end of June 1969, persons registered in this sub-category numbered 13,886.

The "S" Category of registration (column 6) was created in January 1965 in place of the previous "E" and "M" Categories and is being extended to all areas in accordance with appropriate income scales.

"N" Category (column 7) includes refugees whose income is such as to disqualify them for rations or normal services, or who have received assistance to enable them to become self-supporting.

In general, it must be pointed out that the distribution of refugees by category of registration gives only a partial picture of the number of self-supporting refugees owing to the limitations faced by the Agency in determining their actual income or degree of need.

- e/ The total population as at 30 June 1952 included 19,616 refugees receiving relief in Israel who were UNRWA's responsibility to that date.
- f/ Details not available.

g/ Does not include:

- a/ 18,302 displaced registered refugees and children of displaced refugees who are receiving rations on an emergency basis and as a temporary nature and whose category of registration has not therefore been changed.
- b/ 1,540 displaced persons who are not registered with UNRWA who are receiving rations on an emergency basis and as a temporary nature.
- c/ 3,000 persons displaced from Gaza who are being provided with relief assistance in the United Arab Republic.

a/ This table recapitulates changes over nineteen years affecting the total number of ration recipients, their babies and children registered for services (column 4 of table 1). Births, new registrations, deaths, false registrations and duplication resulting in additions to or deletions from the registration records. Self-support and absence reflect transfer to or from the lower categories of registration (shown in columns 5, 6 and 7 of table 1).

Transfers within or between areas, as well as issue of rations (when available) to children registered for services are not shown in this table.

- b/ Includes changes effected during the 1950-1951 census operations.
- c/ No births and virtually no other changes have been documented in respect of registered displaced refugees in east Jordan since the hostilities of June 1967.
- d/ Covers income, employment with the Agency, assistance towards self-support etc., or the cessation thereof.
- e/ Miscellaneous changes include up to June 1953, a number of additions to or deletions from the registration records, as well as certain changes in category of registration. The deletion of refugees in Israel from the Agency's records is also reported mainly under this heading (40,930 persons over the period July 1950-June 1953).
- f/ This figure includes refugees who were absent from West Bank and Gaza after the hostilities of June 1967, many of whom are now in east Jordan.

a/ This table recapitulates changes affecting the total number of registered population (column 8 of table 1) over nineteen years

Transfers within or between areas are not shown herein.

In comparing the figures in this table with those in table 2, it should be borne in mind that deletions from the ration rolls do not necessarily entail deletions from the total registered population. Persons ceasing to draw rations because of absence or self-support continue to be

registered within the total population. On the other hand, some deaths and false and duplicate registrations are reported among persons registered but not receiving rations, and this accounts for the minor differences under these headings in the two tables. In the earlier years of the Agency's history the distinction between ration recipients and registered population was incompletely recorded.

b/ Nature of changes reported under "miscellaneous" was not specified during the census operation. Figures reflect those amendments which resulted in addition or deletion in the total registered population, and removal of refugees in Israel from UNRWA registration records, and correction of deletions previously made by error which were included in the figures of new registration in the reports of previous years.

c/ No births and virtually no other changes have been documented in respect of registered displaced refugees in east Jordan since the hostilities of June 1967.
