

Report No. 49
Implementation of the Agreement on Movement and Access
(19 Sep – 2 Oct 2007)

The United Nations¹ is submitting the 49th bi-weekly report on the implementation of the 15 November 2005 Agreement on Movement and Access (AMA), covering the period 19 September – 2 October 2007.

Overall Progress:

The closure of the Rafah and Karni crossings for the movement of goods and people is ongoing. A single-lane conveyor belt at Karni was open for five days for the entry of grains and animal feed compared to three days in the previous reporting period. Sufa and Kerem Shalom continue to function as the principal alternative entry points for commercial and humanitarian supplies, though Sufa still lacks the appropriate infrastructure to handle food and medical supplies. Concerns are growing with regards to the impact of the approaching rainy season on Sufa as it is a wide-open dirt field. The quantity of goods entering into Gaza continued to decline compared to previous reporting periods. A total of 633 truckloads, including 34 for humanitarian agencies, were allowed entry into Gaza this period, compared to 793 truckloads in the previous reporting period. This represents a 20% decrease from the previous reporting period and a 61% decrease from the same period last year.

Erez crossing was open on 10 days out of 14 scheduled days for people with special coordination arrangements with the Israeli District Civil Liaison, including a limited number of medical cases. While Erez has been closed since early 2006 for Palestinian workers, it was also closed for Palestinian traders during this reporting period.

Changes of note since Report No. 48 (18 September):

- **Rafah** crossing has now been closed for the movement of people for 115 days (last open on 9 June).
- **Karni** crossing has been closed since 12 June for the movement of goods in and out of Gaza. A single conveyor belt/chute for grains and animal feed was open on five days (19, 24, 25 September and 1 and 2 October) for a total of 35 hours, compared to 20 hours in the previous period. A total of 327 truckloads of grains and animal feed entered Gaza, compared to 210 in the previous reporting period.
- **Sufa** crossing was open on four out of the ten scheduled operating days for the entry of commercial and humanitarian supplies, compared to eight days in the last period. An equivalent of 124 truckloads crossed into Gaza through Sufa compared to 425 truckloads during the previous reporting period. Sufa crossing remains closed for the import of construction materials.
- **Kerem Shalom** crossing was open on five days during this period for the entry of commercial and humanitarian goods (same as previous reporting period). An equivalent of 182 truckloads crossed into Gaza through Kerem Shalom, compared to 158 truckloads during the previous reporting period.
- **Erez** crossing has been closed since 12 June to all Palestinians, except for a limited number of senior Palestinian traders, Palestinian staff from international organizations and some medical cases who are granted special permits to cross to the West Bank and Israel. A significant reduction has been reported in the number of medical cases permitted to leave Gaza, while Palestinian traders have not been allowed out of Gaza since 19 September.
- The total number of **obstacles to movement in the West Bank** remains unchanged since the previous reporting period (563 checkpoints).

No Change since Report No. 48 (18 September):

Convoys between the Gaza Strip and the West Bank:

Truck convoys Implementation now 20 months overdue (since mid-January 2006).

Bus convoys Implementation now 21 months overdue (since mid-December 2005).

Ports:

Seaport Awaiting GoI assurance of non-interference with seaport operation.

Airport Awaiting commencement of discussions since November 2005.

¹ The Office of the Quartet's Special Envoy closed on 28 April. Since then, the United Nations, through the OCHA oPt office, has assumed reporting responsibilities on the implementation of the AMA.

1. Rafah			
1.a. Operation			
Days open in period			
	<i>Actual : Scheduled</i>	0 : 14 ^b	0%
Number of days experiencing a closure (total in 2-week period)		14	
Working hours (daily ave.) ^a

Total working hours in period										
<i>Actual : Scheduled</i>	n.a. : 224	n.a.	n.a.	-	n.a.	-	n.a.	-		n.a.
Travellers through crossing (daily ave.) ⁱ	<i>Traders</i>	<i>Workers</i>	<i>In</i>	<i>Out</i>	<i>In</i>	<i>Out</i>	<i>In</i>	<i>Out</i>	<i>Traders</i>	<i>Workers</i>
	0	0	n.a.	n.a.	n.a.	n.a.	n.a.	n.a.	0	0

- a: Karni crossing is scheduled to operate six days per week (closed Saturdays) while Sufa is scheduled to operate five days per week (closed Fridays and Saturdays). There are no scheduled operating days for Kerem Shalom crossing which is open periodically for humanitarian goods only.
- b: The actual working hours per day (ave.) is calculated on the basis of actual days open i.e. 0 days for Karni and 10 days for Erez. All other averages are calculated on the basis of scheduled days open.
- c: Ratio of actual vs. planned working hours of scanners and cells.
- d: There were no reported security incidents during the reporting period.
- e: Karni was not open during the reporting period. One single-lane conveyor belt at Karni crossing was open for about 35 hours for the entry of grains and animal feed on 19, 24, 25 Sep and 1 and 2 Oct.
- f: Total truckloads of exported goods was 0 during the reporting period. The daily average number of trucks is calculated on the basis of scheduled days open i.e. 12 (source: PalTrade).
- g: During the reporting period, the total number of truckloads of imports via the open Karni conveyor belt was 327. (In addition, 0 truckloads of aggregates were imported through Karni). The daily average number of trucks is calculated on the basis of scheduled days open i.e. 12 (source: PalTrade).
- h: Kerem Shalom and Sufa may operate as alternative commercial crossing points when Karni is closed. Traditionally, Kerem Shalom was used for humanitarian goods and Sufa for aggregates (construction materials). Since the Hamas takeover of Gaza in mid-June, Sufa has been used for humanitarian goods as well.
- i: According to the Israeli DCL, Sufa crossing is scheduled to open between 08:30 and 15:00 hours.
- j: Erez remains closed for Palestinian workers since 12 March 2006. During this reporting period, Erez was closed for Palestinian traders as well. Only a few critical Palestinian humanitarian cases were permitted to cross after prior coordination with the IDF (source: COGAT).
- k: According to the Israeli DCL, Erez crossing is scheduled to open for Palestinians between 06:00 and 22:00 hours.
- n.a.= not applicable to this report

2.c Management and Operations - Gaza Strip	YES/NO
New and additional scanner installed at Karni by 31 December 2005	NO
Common management system adopted by both parties	NO
New generation of x-ray equipment installed and used	NO
Passages protected on the Palestinian side of the border	NO
	<i>Training program in place</i>
	<i>Security equipment installed</i>
PA established a unified system of border management	NO
Management system developed for Karni applied to Erez and Kerem Shalom	NO

2.4 Management and Operations - West Bank	Tarkumiya	Jalame	Sha'ar Ephraim
Israel put in place similar arrangements to make West Bank passages fully operational	NO	NO	NO
Operational procedures developed for those passages	NO	NO	NO

Gaza Strip Seaport

	YES/NO
GoI assured donors that it will not interfere with operation of seaport / letter sent	NO
Tripartite committee to develop security and other arrangements for the port established	NO

Gaza Strip Airport

	YES/NO
Discussions continuing on security, construction and operations issues	NO

Link Between Gaza and the West Bank

Convoys	YES/NO
Bus convoys established by December 15 2005	NO
Truck convoys established by January 15 2006	NO
Detailed implementation arrangements worked out	NO
<i>Buses (both directions - ave. in period)</i>	
Number of convoys per day	0
Number of people per day	0
<i>Trucks (both directions - ave. in period)</i>	
Number of convoys per day	0
Number of trucks per day	0

Movement Within the West Bank

Obstacle reduction	YES/NO		
Work ongoing to establish a plan to reduce obstacles	NO		
Plan to reduce obstacles completed by 31 December 2005	NO		
	Current count	Baseline (1 Aug 05) ^b	% increase over baseline
Number of identified obstacles ^a	563	376	49.7%
<i>of which manned</i>	88	59	49.2%
<i>of which unmanned</i>	475	317	49.8%

a: OCHA compiles several times a year a comprehensive count of physical obstacles to Palestinian movement in the West Bank. The figures reported here are based on field observations only. Since 15 September, OCHA does not count checkpoints on the Green Line in the total closure number.

b: This first figure was agreed upon by OCHA and the IDF in August 2005 and is used as the baseline for the AMA.

Trend Analysis - Traveller crossing points

Technical notes to the Report on the Implementation of the Agreement on Movement and Access

The AMA is primarily concerned with the movement of Palestinians and commercial goods traffic into and out of the Gaza Strip. However, movement of humanitarian workers and goods across some of the checkpoints is also included in some of the figures. To clarify the reporting figures, an explanation of the AMA report for each crossing follows:

1. **Rafah.** Rafah crossing was opened by 25 November 2005, as scheduled in the AMA. It is monitored by the EU Border Assistance Mission (EU BAM). There are two aspects of movement through Rafah monitored by the AMA report:

- a. *Movement of people* into and out of Egypt. The AMA report details only Palestinian ID card holder movement. The AMA reports the crossing open only when it is open for Palestinian ID card holders. Others may cross with prior agreement.
- b. *Commercial goods traffic* export to Egypt. To date there has been no movement of commercial goods through Rafah.

The EU-BAM monitors are based in Israel and travel to Rafah via Kerem Shalom when both Rafah and Kerem Shalom are open.

2. **Karni.**

- a. *Commercial goods traffic.* Karni is the primary crossing point for commercial goods into and out of the Gaza Strip. The crossing point is reported 'open' if it is open for imports *and/or* exports. The AMA states that the target for the number of trucks passing through Karni out of the Gaza Strip was 150 by the end of 2005, rising to a target of 400 by the end of 2006. Thus, the scheduled figure in the table on page 3 is set at 150 (the agreed minimum) but the graphical representation of the target in the trend analysis (page 6) shows a dotted line rising to 400 from December 2006.
- b. *Movement of people* to and from Israel/the West Bank. Karni is a back up for personnel movement (for use when Erez is closed). Thus, there are no scheduled working days for personnel movement.
- c. *Humanitarian goods.* Karni is also a crossing point for humanitarian goods into the Gaza Strip. The truckloads of 'goods in' reported on page 2 include both commercial and humanitarian goods. Current data sources do not distinguish between humanitarian and commercial goods.

3. **Erez.**

- a. *Movement of people* (workers and traders) to and from Israel/the West Bank. Erez is the primary crossing point for people into and out of the Gaza Strip. .
- b. *Commercial goods traffic* to and from Israel/the West Bank. Erez is a back up for commercial goods movement (for use when Karni is closed). Thus there are no scheduled working days for goods.
- c. *Humanitarian movement.* International humanitarian staff may cross with prior agreement but are not included in the AMA report.

4. **Sufa.**

- a. *Commercial goods*, specifically aggregates for construction, although other commercial goods may be imported to the Gaza Strip through Sufa periodically. Sufa is reported as 'open' whenever it is open for aggregates, other commercial goods or humanitarian goods. There are no scheduled opening days or hours specified in the AMA.

5. **Kerem Shalom.**

- a. *Humanitarian goods.* Kerem Shalom is an alternative entry point for humanitarian goods.
- b. *Commercial goods traffic* to and from Israel/the West Bank. The Palestinian Authority has refused to accept Kerem Shalom as an alternative commercial crossing point as it is located in Israel. Kerem Shalom is reported as 'open' whenever it is open for humanitarian goods. There are no scheduled opening days or hours specified in the AMA.

6. **General**

The '**number of days experiencing a closure**' is actually the number of days that a checkpoint is completely closed when it was scheduled to be open, for reasons other than a mutually agreed holiday. The agreement does not define a 'closure'. Where a checkpoint is closed for only a few hours during the day (or opens late/closes early) it is recorded as 'open'.
