

Report No. 59
Implementation of the Agreement on Movement and Access
(6 - 19 February 2008)

The United Nations is submitting the 59th bi-weekly report on the implementation of the 15 November 2005 Agreement on Movement and Access (AMA), covering the period 6-19 February 2008¹.

Overall Progress:

The Karni and Rafah crossings remained closed for the movement of goods and people to and from Gaza, except for wheat grain and animal feed at Karni. Erez crossing remained closed for all Palestinians with the exception of urgent medical cases and a limited number of Palestinian staff working for international organizations who require special coordination arrangements with the Israeli District Civil Liaison.

Thousands of Palestinians continued to cross into Egypt in an uncontrolled manner until the border was sealed on 10 February. Sufa crossing was open for humanitarian and commercial commodities for 10 days compared to 5 in the previous reporting period. Kerem Shalom was closed on all 10 scheduled days. Overall, a total of 640 truckloads, including 164 from humanitarian agencies, were allowed into Gaza, compared to 440 truckloads in the previous reporting period.

Changes of note since Report No. 58 (5 February):

- **Rafah** crossing has been generally closed for the movement of people for 241 days (last open 9 June).
- **Karni** crossing has been closed since 12 June for the movement of goods into and out of Gaza. One single-lane conveyor belt/chute for wheat grain and animal feed was open on three days (6, 11 and 14 February) for a total of 27 hours, compared to 20 hours in the previous period. A total of 206 truckloads of grains and animal feed entered Gaza, compared to 303 in the previous reporting period.
- **Sufa** crossing was open on 10 days, during which a total of 434 truckloads, including 164 from humanitarian agencies, were allowed into Gaza.
- **Kerem Shalom** crossing was closed throughout the reporting period, and neither commercial nor humanitarian aid truckloads were allowed into Gaza.
- **Erez** crossing remains closed since 12 June for all Palestinians, except for a limited number of Palestinian traders, aid workers and medical cases who have been granted special permits. Erez crossing was open 12 out of the 14 scheduled days. The crossing has been closed since March 2006 for Palestinian workers. Since 17 January, Israel is also placing additional restrictions on traders' access into Israel.
- **Obstacles to movement in the West Bank** increased to 580 compared to 569 in the previous reporting period. Overall, this represents an increase of 204 obstacles (54.3%) over the baseline figure of August 2005.

No Change since Report No. 58 (5 February):

Convoys between the Gaza Strip and the West Bank:

Truck convoys Implementation now 25 months overdue (since mid-January 2006).

Bus convoys Implementation now 26 months overdue (since mid-December 2005).

Ports:

Seaport Awaiting GoI assurance of non-interference with seaport operation.

Airport Awaiting commencement of discussions since November 2005.

¹ The United Nations, through the OCHA oPt office, has assumed reporting responsibilities on the implementation of the AMA since April 2006.

1. Rafah		
1.a. Operation		
Days open in period		
	<i>Actual : Scheduled</i>	0 : 14 ^b 0%
Number of days experiencing a closure (total in 2-week period)	14	
Working hours (daily ave.) ^a		
	<i>Actual : Scheduled</i>	0 : 12 0%
Total working hours in period		
	<i>Actual : Scheduled</i>	0 : 168 0%
Security incidents on Palestinian side of border	0	^c

a: The actual working hours per day (ave.) is calculated on the basis of **actual** days open.

b: Rafah opened for 0 days. The crossing was closed this week. (Source EU-BAM).

c: There were no reported security incidents.

1.b. Movement: Travellers and Cargo		
	In	Out
Travellers through Rafah (daily ave.) ^d	0	0
Number of trucks (daily ave.)	n.a.	n.a.
Number of cars (daily ave.) ^e	0	0

d: The travellers through Rafah (daily ave.) is calculated on the basis of scheduled days open i.e. 14 days.

e: Pending capacity-building of the Palestinian personnel at Rafah.

1.c. Management and Operations		YES/NO
PA established clear operating procedures		YES
Israel provided PA with population registry data		Incomplete
Liaison office established		YES
PA established baggage limits		YES
PA provided the 3rd party the list of names of workers at Rafah		YES
Security working group established		YES
PA customs officials clearing incoming cargo at Kerem Shalom		NO
Kerem Shalom operating procedures being discussed		YES ^f

f: Working level discussions took place prior to 29 March.

a: Karni crossing is scheduled to operate six days per week (closed Saturdays) while Sufa is scheduled to operate five days per week (closed Fridays and Saturdays). Kerem Shalom crossing has traditionally not had any scheduled operating days and has been open periodically for humanitarian goods only (this changed in mid-June).

b: The actual working hours per day (ave.) is calculated on the basis of actual days open i.e. 0 days for Karni and 4 days for Erez.

All other averages are calculated on the basis of scheduled days open.

c: Ratio of actual vs. planned working hours of scanners and cells.

d: There were no reported security incidents during the reporting period.

e: Karni was generally not open during the reporting period (it has been closed since 12 June 2007). One single-lane conveyor belt at Karni crossing was open for wheat grain and animal feed on 06, 11 and 14 February.

f: Total truckloads of exported goods was 0 during the reporting period. The daily average number of trucks is calculated on the basis of scheduled days open i.e. 12 (source: PalTrade).

g: During the reporting period, the total number of truckloads of imports via the open Karni conveyor belt was 206 (In addition, 0 truckloads of aggregates were imported through Karni). The daily average number of trucks is calculated on the basis of scheduled days open i.e. 12.

h: Kerem Shalom and Sufa may operate as alternative commercial crossing points when Karni is closed. Traditionally, Kerem Shalom was used for humanitarian goods and Sufa for aggregates (construction materials). Since the Hamas takeover of Gaza in mid-June, Sufa has been used for humanitarian goods as well. The ICLA announced on 28 October that Kerem Shalom will from now on schedule to open on 5 days per week from 8:00 until 16:00 hours.

i: According to the Israeli CLA, Sufa crossing is scheduled to open between 08:30 and 15:00 hours. Sufa crossing was closed by the ICLA on 28 October 2007. On 23 December, Israel reopened Sufa crossing for humanitarian and commercial commodities.

j: Erez remains closed for Palestinian workers since 12 March 2006. During this reporting period, Erez crossing was closed for all Palestinians except for a limited number of critical Palestinian humanitarian cases and senior traders who were permitted to cross subject to prior coordination with the IDF (source: COGAT). Erez has traditionally been open 7 days per week. On 12 October 2007, Israel announced that the crossing will close every week from 15:00 on Fridays until 7:00 on Sundays.

k: According to the Israeli DCL, Erez crossing is scheduled to open for Palestinians between 06:00 and 22:00 hours.

2.c Management and Operations - Gaza Strip	YES/NO
New and additional scanner installed at Karni by 31 December 2005	NO
Common management system adopted by both parties	NO
New generation of x-ray equipment installed and used	NO
Passages protected on the Palestinian side of the border	NO
<i>Training program in place</i>	NO
<i>Security equipment installed</i>	NO
PA established a unified system of border management	NO
Management system developed for Karni applied to Erez and Kerem Shalom	NO

2.4 Management and Operations - West Bank	Tarkumiya	Jalame	Sha'ar Ephraim
Israel put in place similar arrangements to make West Bank passages fully operational	NO	NO	NO
Operational procedures developed for those passages	NO	NO	NO

Gaza Strip Seaport	
	YES/NO
Gol assured donors that it will not interfere with operation of seaport / letter sent	NO
Tripartite committee to develop security and other arrangements for the port established	NO

Gaza Strip Airport	
	YES/NO
Discussions continuing on security, construction and operations issues	NO

Link Between Gaza and the West Bank	
Convoys	YES/NO
Bus convoys established by December 15 2005	NO
Truck convoys established by January 15 2006	NO
Detailed implementation arrangements worked out	NO
<i>Buses (both directions - ave. in period)</i>	
Number of convoys per day	0
Number of people per day	0
<i>Trucks (both directions - ave. in period)</i>	
Number of convoys per day	0
Number of trucks per day	0

Movement Within the West Bank			
Obstacle reduction			YES/NO
Work ongoing to establish a plan to reduce obstacles			NO
Plan to reduce obstacles completed by 31 December 2005			NO
	Current count	Baseline (1 Aug 05) ^b	% increase over baseline
Number of identified obstacles ^a	580	376	54.3%
of which manned	87	59	47.5%
of which unmanned	493	317	55.5%

a: OCHA compiles several times a year a comprehensive count of physical obstacles to Palestinian movement in the West Bank. Since 15 September, OCHA does not count checkpoints on the Green Line in the total closure number. The figures reported here are based on field observations only.

b: This first figure was agreed upon by OCHA and the IDF in August 2005 and is used as the baseline for the AMA.

Trend Analysis - Traveller crossing points

Rafah		Baseline Jan 04 - Jun 05	Period 58 23 Jan - 5 Feb 08	Period 59 6 Feb - 19 Feb 08

Technical notes to the Report on the Implementation of the Agreement on Movement and Access

The AMA is primarily concerned with the movement of Palestinians and commercial goods traffic into and out of the Gaza Strip. However, movement of humanitarian workers and goods across some of the checkpoints is also included in some of the figures. To clarify the reporting figures, an explanation of the AMA report for each crossing follows:

1. **Rafah.** Rafah crossing was opened by 25 November 2005, as scheduled in the AMA. It is monitored by the EU Border Assistance Mission (EU BAM). There are two aspects of movement through Rafah monitored by the AMA report:
 - a. *Movement of people* into and out of Egypt. The AMA report details only Palestinian ID card holder movement. The AMA reports the crossing open only when it is open for Palestinian ID card holders. Others may cross with prior agreement.
 - b. *Commercial goods traffic* export to Egypt. To date there has been no movement of commercial goods through Rafah.The EU-BAM monitors are based in Israel and travel to Rafah via Kerem Shalom when both Rafah and Kerem Shalom are open.
2. **Karni.**
 - a. *Commercial goods traffic.* Karni is the primary crossing point for commercial goods into and out of the Gaza Strip. The crossing point is reported 'open' if it is open for imports *and/or* exports. The AMA states that the target for the number of trucks passing through Karni out of the Gaza Strip was 150 by the end of 2005, rising to a target of 400 by the end of 2006. Thus, the scheduled figure in the table on page 3 is set at 150 (the agreed minimum) but the graphical representation of the target in the trend analysis (page 6) shows a dotted line rising to 400 from December 2006.
 - b. *Movement of people* to and from Israel/the West Bank. Karni is a back up for personnel movement (for use when Erez is closed). Thus, there are no scheduled working days for personnel movement.
 - c. *Humanitarian goods.* Karni is also a crossing point for humanitarian goods into the Gaza Strip. The truckloads of 'goods in' reported on page 2 include both commercial and humanitarian goods. Current data sources do not distinguish between humanitarian and commercial goods.
3. **Erez.**
 - a. *Movement of people* (workers and traders) to and from Israel/the West Bank. Erez is the primary crossing point for people into and out of the Gaza Strip. .
 - b. *Commercial goods traffic* to and from Israel/the West Bank. Erez is a back up for commercial goods movement (for use when Karni is closed). Thus there are no scheduled working days for goods.
 - c. *Humanitarian movement.* International humanitarian staff may cross with prior agreement but are not included in the AMA report.
4. **Sufa.**
 - a. *Commercial goods*, specifically aggregates for construction, although other commercial goods may be imported to the Gaza Strip through Sufa periodically. Sufa is reported as 'open' whenever it is open for aggregates, other commercial goods or humanitarian goods. There are no scheduled opening days or hours specified in the AMA.
5. **Kerem Shalom.**
 - a. *Humanitarian goods.* Kerem Shalom is an alternative entry point for humanitarian goods.
 - b. *Commercial goods traffic* to and from Israel/the West Bank. The Palestinian Authority has refused to accept Kerem Shalom as an alternative commercial crossing point as it is located in Israel. Kerem Shalom is reported as 'open' whenever it is open for humanitarian goods. There are no scheduled opening days or hours specified in the AMA.

6. General

The '**number of days experiencing a closure**' is actually the number of days that a checkpoint is completely closed when it was scheduled to be open, for reasons other than a mutually agreed holiday. The agreement does not define a 'closure'. Where a checkpoint is closed for only a few hours during the day (or opens late/closes early) it is recorded as 'open'.
